

# WEE

GEOBIKE novelty for season 2019 !

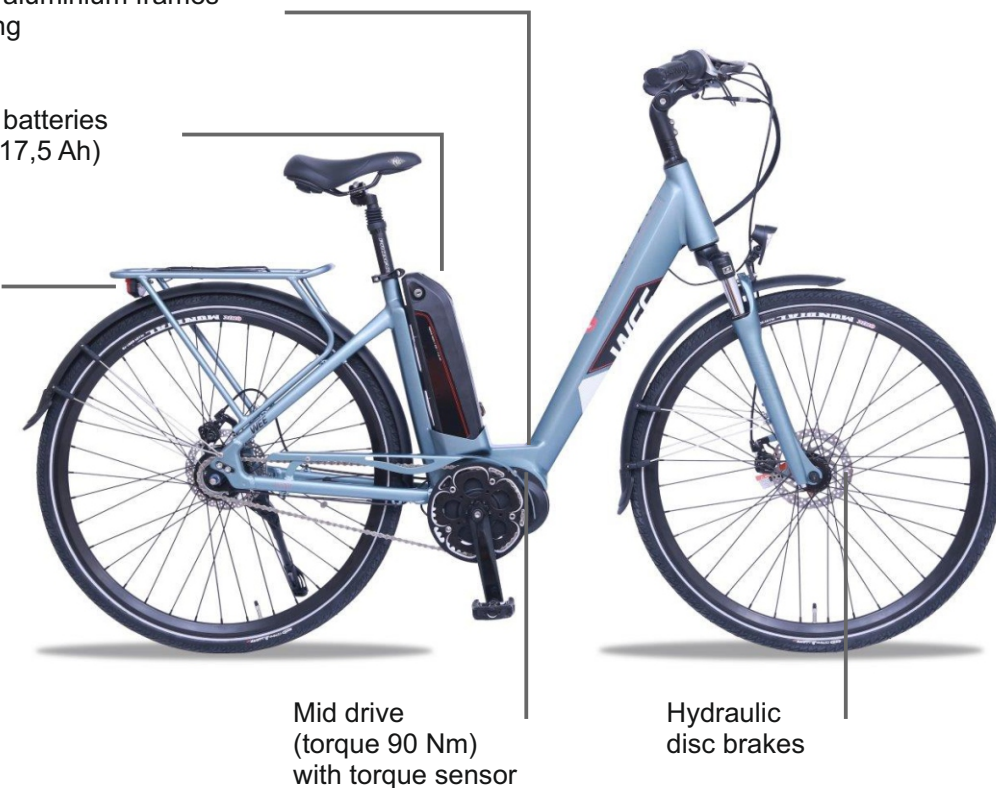

**WEE - electric bikes PREMIUM class**

**Max range 150 km, batteries capacity 630 Wh.**

Strengthened aluminium frames  
smooth welding

High capacity batteries  
630 Wh (36V 17,5 Ah)

STOP lights  
Spanninga

**Mid drive  
torque 90 Nm  
torque sensor**

**High capacity batteries  
630Wh  
(17,5 Ah x 36V)**

**3 years warranty for battery**  
(guaranteed battery capacity 8,75 Ah  
after third year of usage)

**Max range 150 km**  
due combination of  
batteries high capacity  
and very efficient mid drive

\* WEE Platinum XL Li-ion batteries capacity 17,5 Ah (SAMSUNG cells) covered by three years warranty  
Batteries capacity decreases during use according to the diagram  
a) to 14 Ah after first year of usage b) to 9,75 Ah after second year of use c) to 8,75 Ah after third year of use.

\* In the case of standard 11 Ah batteries, the capacity after the second year of use decreases to 7.8 Ah  
and the third year of use is not covered by the warranty.

# WEE

**WEE - highest quality and safety !**

→ **Lifetime warranty for frames**  
smooth welding and strengthened frames

→ **Batteries capacity 630 Wh**  
(36V x 17.5 Ah)  
**3 years limited warranty\***

→ **Mid drive**  
**torque 90 Nm**  
torque sensor

→ All wires hidden inside frames

→ **Hydraulic disc brakes**  
with braking sensor

→ 3D spokes and double-walled rims

→ Antipuncture tyres

→ **Stop lights**  
Spanninga

**WEE  
Ruby**

**28"**

Strengthened aluminium frame step-through style, energy-saving mid motor 250W (90Nm) with torque sensor, sinusoidal controller, LCD display, 9 speed, day/night work mode, walk assist (6 km/h), battery Samsung 36 V 17.5 Ah (630 Wh) mounted in rear rack, suspended front fork painted in frame colour, comfortable saddle Selle Royal HZ, suspended seatpost, antipuncture tyres, double-walled rims, strengthened 3D spokes, inner derailleur Shimano Nexus 7, hydraulic disc brakes, braking sensor, leather grips, easy adjustable stem, automatic lights SPANNIGA LED, STOP light, dusk sensor, metallic paint. Max range 150 km (ECO mode), max speed 25 km/h.

**WEE  
CARNELIAN**

**28"**

Strengthened aluminium frame cross-bar style, energy-saving mid motor 250W (90Nm) with torque sensor, sinusoidal controller, LCD display, 9 speed, day/night work mode, walk assist (6 km/h), battery Samsung 36 V 17.5 Ah (630 Wh) mounted in frame just over the motor (lowered center of gravity of the bicycle), suspended front fork painted in frame colour, comfortable saddle Selle Royal, suspended seatpost, antipuncture tyres, double-walled rims, strengthened 3D spokes, inner derailleur Shimano Nexus 7, hydraulic disc brakes, braking sensor, leather grips, easy adjustable stem, automatic lights SPANNIGA LED, STOP light, dusk sensor, metallic paint. Max range 150 km (ECO mode), max speed 25 km/h.

**WEE  
CALCITE**

**28"**

Strengthened aluminium frame step-through style, energy-saving mid motor 250W (90Nm) with torque sensor, sinusoidal controller, LCD display, 9 speed, day/night work mode, walk assist (6 km/h), battery Samsung 36 V 17.5 Ah (630 Wh) mounted in frame just over the motor (lowered center of gravity of the bicycle), suspended front fork painted in frame colour, comfortable saddle Selle Royal, suspended seatpost, antipuncture tyres, double-walled rims, strengthened 3D spokes, inner derailleur Shimano Nexus 7, hydraulic disc brakes, braking sensor, leather grips, easy adjustable stem, automatic lights SPANNIGA LED, STOP light, dusk sensor, metallic paint. Max range 150 km (ECO mode), max speed 25 km/h.

**Suggested selling price for WEE models Ruby, Carnelian and Calcite: 2 490 EUR**
